

FRDP Heat Shrinkable Wraparound Sleeve with Closure Patch

- ◆ Mainly used in coating the weld joint of buried steel pipeline and insulated pipeline.
- ◆ Adhere closely to the surface of steel pipeline, PE-Coating, CTE-Coating and FBE-Coating on steel pipeline and form a continuous close anti-corrosion system with the surface of the pipeline
- ◆ Easily adapts itself to the environmental. Good resistance upon mechanical damage. Good resistance to the liquid pressure. Strong resistance to bacterium, mildew and other chemical corrosion

Product Dimensions

Size	Length of sleeve	Length of patch	Wide of patch
FRDP Φ168X500-1.2/0.8	700	Equal to the wide of sleeve	100
FRDP Φ219X500-1.2/0.8	900		120
FRDP Φ273X500-1.2/0.8	1070		120
FRDP Φ325X500-1.2/0.8	1260		120
FRDP Φ355X500-1.2/0.8	1360		120
FRDP Φ426X500-1.5/1.0	1600		120
FRDP Φ508X500-1.5 /1.0	1860		150
FRDP Φ529X500-1.5/1.0	1920		150
FRDP Φ610X500-1.5/1.0	2220		150
FRDP Φ711X500-1.5/1.0	2560		150
FRDP Φ813X500-1.5/1.0	2880		150
FRDP Φ1219X500-1.5/1.0	4180		150
